119 North State Street  
Elgin, Illinois 60120

Attn: Mr. Richard Hampel

Dear Mr. Hampel:

Your solid waste disposal facility located north of your company on the east side of Route 31 was inspected on December 28, 1977, by R. Wengrow, representing this Agency.

The inspection disclosed the following condition(s) which constitute violations of the Environmental Protection Act and Chapter 7 of the Illinois Pollution Control Board Solid Waste Rules and Regulations:

... Bags of air pollution control residual waste were observed at the base of the slope. This material was not covered with the required six (6) inches of daily cover.

In addition, it was observed that filling operations are occurring closer to the Fox River (approximately 10 feet away). Dumping into the river will be considered as an unacceptable operating procedure.

It is suggested that you take immediate steps to resolve the conditions described above.

Sincerely,

Joseph F. Petrilli, Northern Region Manager  
Land Field Operations Section  
Division of Land/Noise Pollution Control
